PUNTI AND MANDARIN PRONUNCIATION. An Anglo-Chinese Dictionart, by the Boy. W. LOBSOHEID, published at the Daily Press Office, Hongkong.

POH scope and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extense. Each and every word is fully illustrated and explained, forming exer-cises for students of a most instructive nature. Both the Court and Punti pronunciation are given, the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond a the size of body, thereby effecting a vast economy of space, achieving a clearness not previously attained, and dispensing with those vast margins and vacant spaces which have heretofore characterized Chinese publications.

The scope of the work is so great, and its utilitarian purposes so complete, that a re-ference to its pages enables a person who understands English to communicate ejectively with natives who understand nothing but Chi-YAKHOW AND HEDLEY'S

MALL STEAMERS AND STEAM ness, In this respect the work will be found indispensable to all Europeans residing in China, and to the matives themselves it explains scatts for 8 persons, complete from £145. A CHINESE AND ENGLISH DICTIONARY

THE REVD. W. LOBSCHEID.

THE above work, which has been chiefly I compiled for the purpose of siding students in the study of Chinese literature, comprises many characters but met with in any of the Dictionaries bitherto published.

The selection of between 8,000 and 9,000 characters will make it comparatively easy to find a character without counting the strokes of the compound figure, (minus the radical), and the addition of the Synonyms will prove a great help to such as are unvious to security. great belp to such as are unxious to sequalni themselves more minutely with the character the language.

The work contains 584 Importance pages, and is neatly bound in cloth.
